

Young Sire Sampling Incentive Program, March 2010 Listing

The RWDCA, in cooperation with the AI industry, is pleased to present this new Young Sire listing. This program has grown into a very useful and popular feature, informing breeders of the latest sires available and providing data to allow them to select sample sires that fit their goals. Our thanks to the AI industry for its continued support of the YSSIP. As a reminder, breeders using the sires listed below may deduct \$1 from the registry fee for each animal registered before March 31, 2012.
